

SUMMER 2020

Initiation Booklet

Experimental and Medical Biosciences

Hi!

This is a short booklet written by second year students from the master program of Experimental and Medical Biosciences at Linköping University (LiU).

We are so happy that you will join the program and be one of us this autumn. To make your life in Sweden as a country and in Linköping as a city as easy as possible for you, we have gathered some tips and tricks, good stuff to know, and a list of how the first week at the program will look like for you in this handy little booklet.

We all hope you will have a great summer. See you in august!

Kind regards Year two

Table of contents

The “Faddrar”	
Studies in Corona-times	
Registration in Sweden	
Swedish ID-card	
Getting a bank account	
Swish and Bank-ID	
Transport in Linköping	
LiU organization, Student Unions, Section, and Party-committees	
Getting a Swedish SIM card	
Free time activities	
Accommodation and housing	
Map of Tornby	
Traveling	
Swedish words to know	
The welcoming week	

The "Faddrar"

At Linköping University, the student unions (see more info later in the booklet) are keen on making the initiation for new students as good as possible. They do this by training students to become so called "Faddrar", people taking care of the new students and arranging a fun initiation! On the final page in this booklet we will give you handy information about the first week and about the fun activities we will offer then! If any questions arise before you arrive in Linköping and meet us in person, you are more than welcome to email any one of us!

- Hjalmar Waller: hjawa871@student.liu.se

Studies in Corona-times

The most dominant subject to discuss in these days is of course Covid-19 and how the pandemic situation is handled. The Swedish government follows a quite unique course and gives more guidelines how every person should act instead of shutting down the country by restrictions. Of course, even in Sweden some measures are taken, e.g. gatherings with more than 50 people are prohibited and bars and clubs with no table service are closed. If you have any questions about how the current situation is affecting us students at Linköping University, please feel free to e-mail any of us!

This is how last semester went:

Linköping University went into distance mode in the middle of the Spring Semester following recommendations by the Swedish government. Two days later all lectures in the courses were either recorded or held as online lectures via Zoom. All seminars and working groups were held over Zoom as well and any practical laboratory parts in the courses were cancelled or carried out as theoretical assignments. All examinations were carried out as home assignments or online exams. The students that were performing practical projects in the laboratory by that time had to stop the practical work immediately. There were compromises found for those students that had no results to compensate for that by including a literature study in their project reports. In the end of the semester the supervisors had the possibility to apply for an exemption, so that the student were allowed to perform necessary laboratory work. But most important every student had the possibility to get the ETSC independently of the performed laboratory work.

This is how the next semester is planned:

We received this information unofficial from our current program director Katarina and she says that this scenario, a hybrid mode, is about 95% secure to happen. Should also note that we will have a new study director next year – Jordi Altimiras.

All courses for first semester students will be held in normal on-campus mode. This means that you will have every lecture taught on the campus, as well as seminars, working groups and laboratory work in order to be able to socialize with your fellow students. We second semesters will join the on-campus mode when the elective courses start later in the semester, because they will be attended by mixed groups of first and second years. All laboratory project work can be performed on-campus, here the individual guidelines from the different working groups apply. The overall amount of people on the campus will be strongly reduced as just people from the first semester of every program will be there.

If you want to know more about the current covid-19 situation follow this link to the official webpage of Linköping University: <https://insidan.liu.se/HR-Personal/coronavirus/faq-incoming-students?l=en>

Registration in Sweden

If you come to Sweden for a one- or two-year Master program you need to get registered and you will receive a personal identity number or “personnummer” as it is called in Swedish. This is required for a lot of further activities in the bank system etc. Once you arrive in Linköping you will first need to go to the Student Service Desk in Campus Valla (Studenthuset) or Campus US (Entry 76) and get your LiU Card. For this you first need to register for your program in

<https://www3.student.liu.se/portal/> and bring the admission letter and your passport/ID with you. There they will give you your LiU card.

As soon as possible you should go to the Swedish Tax Agency (Skatteverket) in town (opening hours below) take the LiU card and your housing contract as well as all other required documents to Skatteverket. Required documents vary depending on your nationality

(<https://www.skatteverket.se/servicelankar/%20otherlanguages/inenglish/individualsandemployees/%20movingtosweden.4.7be5268414bea064694c40c.html>)

and we recommend you to have everything ready once you arrive in Linköping as getting a personal identity number otherwise it can take a lot of time and it already takes some weeks to months to get it in a usual case.

After your visit to Skatteverket a letter will be sent to you with your new personal identity number. So, when giving your address at Skatteverket you should make sure that you don't only write your house number but also your specific room or apartment number indicated with the letters LGH. This is especially important for students who are living in corridor rooms because otherwise letters might be sent back to Skatteverket.

Opening hours for "Skatteverket"

Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
10AM–4PM	10AM–4PM	10AM–4PM	10AM–4PM	10AM–4PM	Closed	Closed

After getting your personal number, there are many activities and discounts you can get access to. Here we would like to recommend two things:

1. After getting your Personal number, you could apply for Mecenat card and ID. Through Mecenat you could get many interesting student discounts. For applying, you will have to send an email to kundtjanst@mecenat.se stating that you would like to apply for Mecenat card and ID and attach your details – Name, Personal number, Student ID card number, Certificate of registration (you can get this on ladok after registering your courses) and your address. Once the request is registered you will receive an email with access to Mecenat digital card with an ID number. You could log in to <https://mecenat.com/se> for more details. Furthermore, you need to show the Mecenat card or the Studentkortet (“the student card”) to identify yourself as a student to enter student pubs or clubs or buy tickets for student parties. You can register for Studentkortet at <https://www.studentkortet.se/> and here you will also get some student discounts. Note that having **one** of the above-mentioned cards is enough.
2. If you are interested in working in Sweden, then knowing how to speak Swedish is an advantage. Swedish immigration offers free Swedish course for foreigners who have personal number. You can apply for the course after you get your personal number. In Linköping, the contact information for The SFI (Swedish For Immigrants) class is:
<https://www.linkoping.se/forskola-och-utbildning/vuxenutbildning/sfi/>.
You can apply for SFI class by following the information on this website.

Swedish ID card

Once you received the letter with your personal number you managed one major step and you are now one step closer to the final bureaucratic steps. For a lot of things, a Swedish ID might be very helpful, and it is a proof of age and identity within Sweden. Therefore, you need to apply for an ID card which costs 400 SEK. You pay this fee in advance of the application for the ID card and you need to have a proof of payment with you once you go to the tax agency again to take a picture and apply for the ID. All further information on what to keep in mind before going there is mentioned here: <https://www.skatteverket.se/servicelankar/otherlanguages/%20inenglish/individualsandemployees/livinginsweden/idcard/%20idcardapplicationconditions.4.3810a01c150939e893f1daea.html> After some weeks you will get a letter with which you need to go back to Skatteverket to pick up your ID card. Important for you to know: The Swedish ID is only valid in Sweden and doesn't replace your passport while traveling outside Sweden.

Getting a bank account

To get a bank account in Sweden you need to have a personal number and some banks even ask for a Swedish ID card. There are different banks existing that you can check out: SWEBANK, SEB, Länsförsäkringar Östergötland, ICA Bank etc.

Swish and Bank-ID

Swish is a very useful and powerful App in Sweden. It is connected to your phone number and your bank account. People with Swish can easily transfer money between one another using phone numbers. In order to be able to use Swish you need a kind of ID security App. It is also connected

to bank account and is basically a second App where you have a code that works as a signature. Once you want to Swish a special amount this app called BankID is opened and you can verify your transfer. Also, for some other activities in the web e.g. Declaring taxes later if you would have a job you can do online once you have a BankID.

Transport in Linköping

Going from one place to another in Linköping is quite easy, you can choose to go by bike or by bus. Linköping has great local bus traffic, which will make it easy for you as a new student to move around in the city. Here we will give you some examples for bus lines that are good to know about when you are new in Linköping.

In the beginning you will be moving a bit back and forth between the two campuses we have in Linköping. One is close to the city center and integrated into the hospital called US (Which stands for University Hospital, US). Campus Valla is located in a part of Linköping called Valla, there you will have your first course. Later on most of the courses will be located at US.

Bus lines:

Nr 4: this one is a great one since it can take you from Resecentrum (train station) all the way to Lambohov and on the way it will go by both US and Campus Valla.

Nr 3: for people living in Ryd, this is the most important line. It runs between Ryd and Linköping centrum and stops at Resecentrum. And if you live in Ryd you will be close to Campus Valla and can probably walk or take the bike for lectures or activities on this campus. To go to the hospital that will take you around 15-20 minutes by bike but usually most of the students take their bikes these distances as well.

Nr 73: also called the campus bus, is a bus you can take to go in between Campus Valla and US and if you want to, it can also take you all the way to Norrköping. The best part with the campus bus is that it is free! You only need to show your Liu card, and you are good to go.

There are of course a lot more bus lines but that are the lines the most important to get you started. For more information go to Östgötatrafiken's (bus company) homepage, it can be translated into English. There you can get information about the different buses and ticket prices, there is student discount and to get access to it you need to show your Liu card.
<https://www.ostgotatrafiken.se/>

We do recommend that you download the app ÖstgötaTrafiken to your phone. In there you can buy tickets and also search for different travel options between the bus stops.

Side note: Remember that Swedes do not like to stand close to each other by the bus stops but are happy to help if you have questions about different routes and when and where the bus is going. Queueing to enter the bus is the usual way Swedes get on a bus.

Bikes are the most common modes of transport in Linköping. In your first week you could purchase a bike from the stores namely, Jula and Biltema. You could also purchase secondhand bikes. The best place to find the secondhand bikes is in on Facebook - ESN flee market and Facebook market.

LiU organization, Student Unions, Section, and Party-committees

LiU has around 27,000 students and 4,000 employees on four different campuses (Campus Valla and the University

Hospital in Linköping, Campus Norrköping, and Campus Lidingö). However, the MSc Experimental and Medical Bioscience program has the University Hospital (US) as its main campus, but some courses are located on Campus Valla. In general, there are 4 faculties at LiU: Arts and Sciences (FilFak), Educational Sciences (UV), Medicine and Health Sciences (MedFak), and the Institute of Technology (TekFak). Our program belongs to MedFak. For more information about the LiU organisation follow this link: <https://liu.se/en/about-liu/organisation>

At LiU, there are also 3 student unions - Consensus, LinTek and StuFF - representing the four faculties. Consensus is the student union of MedFak and they are working with a range of matters to improve our education and student life. The members of Consensus decide what the student unions should think, say and work with. For example, the student unions helped to establish the free University bus going between the Linköping and Norrköping campuses. The board of Consensus consists of students at MedFak and, in short, they help and support the students with matters concerning examinations, internships, teachers, supervisors, and work environment. Together with the other student unions at LiU, Consensus owns the company Kårservice that runs the 5 student union buildings: Örat, Kårallen, Kårhus Kollektivet, [hg] and Trappan. These are places by students for students, where you as a student can work and engage in! For more information about Consensus follow this link: <https://consensus.liu.se/in-english>

Each study program has a section board made of student electives. The sections of MedFak function as the student representatives within Consensus union. There are 9 student sections belonging to the Consensus, including ours - Medical Biology section (BioMed). BioMed is the joint section

of the bachelor program “Experimental and Industrial Biomedicine” and the master program “Experimental and Medical Bioscience”. The section works to represent students’ opinions about the education and student life at all deciding organs within the program and faculty. The section makes sure that your voice as a student is heard. For more information about your section follow this link: <https://www.consensus.liu.se/sektionerna/medbi>

Each section also has a party-committee or "festeri" which organizes a lot of social activities, parties and events for students at that program. BioMed’s party-committee is called “FylleCellen” (a play with the words drunk tank/drunken cell). There are also a variety of student associations that bring people with different interests together.

Getting a Swedish SIM card

Here in Sweden most places have WIFI but when you are going to be here for a longer time a Swedish SIM card is recommended. There are several companies with different options to choose from. They all usually have student discounts and homepages you can visit to see what kind of deal you can get or if you want to there is also stores in the city so you can talk with someone, so they can help you out with a deal that is most suited for you. Remember to double check between the different companies so you get the cheapest and best one and read or ask about the conditions or length of contract etc. Something to also keep in mind is that most of the companies do want you to have a Swedish personal number so get that as soon as possible. Down below we have listed some telephone companies where you can get a sim card from. Some of the homepages can be translated into English but some don't have that option, in that case we recommend looking up “kontakta oss” or “Kundservice”. There will be an option like “chatta med oss”

or “Ring oss” where you will be able to talk to a person in English.

Company	Webpage
3	https://www.tre.se
Tele2	https://www.tele2.se
Telenor	https://www.telenor.se
Telia	https://www.telia.se
Hallon (cheap)	https://www.hallon.se
Halebop	https://shop.halebop.se
Vimla (cheap)	https://vimla.se

Lycamobile (cheap internet in case you live alone and don't want to get WIFI installed as this can get expensive for one person. You can get the biggest bundle with around 20 GB data and use your phone as Hotspot in case you don't watch long movies or play a lot of video games etc... Also, it is a nice option to talk to your family in various countries for a cheap price in case they have lycamobile as well) - <https://www.lycamobile.se/en/>

Free time activities

LiU has a very rich student life with many different student organizations you can join and lots of activities to attend, depending on what your interests are. Here is a list of student organizations (with brief descriptions) that you can check out if you want – participating in the student life is a great way to make new friends!

Computers and electronics

Admittansen: Admittansen is a non-profit electronics club in Linköping open to students, alumni and staff of Linköping University. Homepage: <https://admittansen.se/in-english/>

FIA: An association for Autonomous Intelligent Systems. Their goal is to increase the interest in robotics and artificial intelligence. Homepage (in Swedish): <http://fiarobotics.se/>

LiThe EI: Student electronics association. Homepage (in Swedish): <http://litheel.org/info/>

LiThe Kod: Student computer programming association. Homepage (in Swedish): <http://lithekod.se/>

LiU 3D: Association for 3D printing. Homepage (in Swedish): <https://www.facebook.com/LiU3D/>

Lysator: Academic computer association for students and employees at LiU. Homepage: <https://www.lysator.liu.se/english/>

Exercise and sports

BioMed Sport Activity: The section arranges various sport activities such as running and outdoor workouts for the students in the program. More information will come when the autumn semester starts.

AC studenterna: A student soccer team. Homepage (in Swedish): <https://idrottonline.se/ACStudenterna-Fotboll>

Campushallen/LSIF: Linköping Student Sports Association, that also runs a large fitness center on Campus Valla. Homepage: <https://www.campushallen.se/en>

Dance Machine: A dance group that promotes the joy of dancing and appears at University events. Homepage: <https://www.facebook.com/dancemachine.liu>

FLUGA: Linköping University's fly-fishing club. Homepage: <http://flugfiskeliu.weebly.com/in-english.html>

HKL Make Believes: Student ice-hockey association with yearly try- outs for the team in September.

Homepage (in Swedish): <https://makebelieves.se/>

Klätterklubben: Climbing and bouldering association.

Homepage (in Swedish): <https://linkopingsklatterklubb.se/>

LARK: Equestrian sport association. If you love horses, you are welcome to join!

Homepage (in Swedish):

<https://www.facebook.com/LinkopingsAkademiskaRidklubb>

Linköpings nycirkusförening: Association for juggling, unicycling, acrobatics and other circus arts.

Homepage (in Swedish):

<http://www.cirkusemma.se/linkopingsnycirkusforening/>

LiThe Vilse: Student orienteering association.

Homepage: <https://vilse.studorg.liu.se/english.php>

LiTHE Syra: Jogging/running association.

Homepage (in Swedish): <https://www.lithesyra.org/>

LiU AIF: Linköping Student Academic Sports Club. They include such associations as for football, floorball, tennis, squash, swimming, basketball, handball, paddle and golf
Homepage:

<https://www.svenskalag.se/liuaif/sida/36340/short-info-in-english>

LiU Water & Wind: Linköping University Water and Wind Sports association.

Homepage (in Swedish): <http://www.liuwaterwind.se/>

LuFF: Linköping University Flying Club.

Homepage (in Swedish): <http://www.lfk.se/>

PAFF: Outdoor and hiking association in Norrköping.

Homepage (in Swedish): <http://paff.nu/>

Film, Photography and Media

Kultingen: A magazine for students written by students.

Homepage (in Swedish): <http://foreningen.tidskriftenkult.se/>

LinoFilm: A student film and television association.

Homepage: <https://www.facebook.com/LinoFilm/>

Linslusen: A photography association.

Homepage: <http://www.linslusenkpg.se/in-english/>

Stubinen: A student cinema in Norrköping.

Homepage: <http://stubinen.org/>

Human rights and politics

IFMSA: International Federation of Medical Students Association.

Homepage: <https://www.ifmsa.se/linkoping/?lang=en>

Foreign affairs student association: The Student Association of Foreign Affairs at Linköping University is a politically and religiously independent non-profit association.

Homepage: [http:// www.uflinkoping.org/](http://www.uflinkoping.org/)

International student organizations

AIESEC: Association for developing youth leadership through cross-cultural exchange.

Homepage: <https://aiesec.org/>

East Asian Association: Association by and for students interested in East Asia. Organizes language exchange events and cultural activities, such as cooking and movie events.

Homepage: <http://eastasian.studorg.liu.se/>

ESN Linköping: Arranges activities for both exchange students and Swedish students.

Homepage: <https://www.facebook.com/esnlinkoping/>

IAESTE: International Association for Exchange of Students for Technical Experience.

Homepage: <https://iaeste.se/en/>

ISA: The International Student Association. Organizes various activities and events ranging from seminars and workshops to parties.

Homepage: <http://isa.studorg.liu.se/>

ISO: Indian Student Organization. A student governed organization for people who are interested about the Indian culture and their values.

Homepage:

<https://www.facebook.com/pg/IndianStudentsOrg/%20about/?tab=overview>

Music

Choirs

Chorus Lin: A mixed student choir.

Homepage (in Swedish): <https://www.choruslin.se/wp/>

Linköpings Studentsångare: An academic men's student choir.

Homepage (in Swedish): <https://www.lkss.se/>

Linköpings indie kör: A mixed choir singing indie music.

Homepage (in Swedish): <http://www.linkopingsindiekor.se/>

Linnea: Academic women's student choir.

Homepage (in Swedish): <http://damkorelinnea.se/>

LiThösen: Student choir for women.

Homepage (in Swedish): <http://www.lihtosen.se/>

Novakören: Student choir in Norrköping.

Homepage (in Swedish):

<https://www.facebook.com/novakorennkpg>

Röda Arméns Gosskör: Red Army's Men Choir. Politically neutral.

Homepage (in Swedish): <https://rag.lysator.liu.se/>

SKÖN: Mixed student choir based in Norrköping.

Homepage (in Swedish): <http://www.skon.nu/>

Orchestras and Bands

Linköpings akademiska orkester: Linköping Academic Orchestra.

Homepage (in Swedish): <https://laorkester.se/>

LiThe Blås: Student orchestra.

Homepage (in Swedish): <https://www.litheblas.org/sv/>

Strängar och Rör: Student fiddlers of Linköping.

Homepage (in Swedish):

<https://www.facebook.com/LinkopingsStudentspelmanslag/>

Lusen Big Band: Linköping University's Big band.

Homepage (in Swedish): <http://lusenbigband.se/>

DJ associations

forte!: DJ association.

Homepage (in Swedish): <http://forte.studorg.liu.se/>

John Doe: Works to spread and broaden the music culture in Linköping.

Homepage (in Swedish): <https://www.klubbjohndoe.com/>

Valla Skivgarde: DJ association that also organizes events and rents out sound and light equipment.

Homepage (in Swedish): <http://www.vallaskivgarde.se/>

Coffee and cafés

Café Örat (campus us): Student café with the cheapest coffee (and tea). LiU card is needed to be able to enter the house.

DeliMarché (campus us): Café and restaurant conveniently located in building 421 but are the most expensive.

Pressbyrån/7-Eleven (campus us): Inside the hospital you'll find Pressbyrån and 7-eleven that have coffee, tea, edible things and other stuff. Student discount on the coffee making it cheaper than DeliMarché. Good opening hours.

Café Byttan (campus Valla): Student café with student friendly prices located in Studenthuset. Here you can buy a reusable cup as an environmentally friendly alternative, also the coffee becomes cheaper and you can change the cup to a new one in the café.

Pressbyrån (campus Valla): Student discount on coffee and better opening hours than most of the cafés in Valla. Located next to Studenthuset.

Baljan (campus Valla): A student café located in Kårallen. Here you can buy coffee and fika for student friendly prices. Homepage: <https://www.facebook.com/sektionscafe.baljan/>

Studentfiket: A student café in Norrköping. Homepage (in Swedish): <http://www.studentfiket.com/>

Pubs and clubs

Kårhuset Kollektivet (KK): Student club in the city center that are housing student parties. Pay attention to posters in the campus/events on facebook.

Homepage: <http://karhusetkollektivet.se/>

Kårallen: Housing of different student parties. Located in Campus Valla. Pay attention to posters in the campus/events on facebook.

Flamman: A student pub and disco.
Homepage (in Swedish): <http://www.flamman.org/>

Fredagspuben: A Bar association.
Homepage: <http://www.brandonboys.com/#3781793>

VilleValla Pub: A student pub.
Homepage: <https://www.villevallapub.se/english>

Religion

Fisherman's Friend: A Christian Student organization.
Homepage (in Swedish):
<https://www.facebook.com/FishermansFriendLiU/>

Ny Generation: A Christian Student organization.
Homepage (in Swedish):
<https://www.facebook.com/NyGenerationLiU/>

SAAF LiU: Syriac/Aramaic Academics at Linköping University.
Homepage: <https://saafsverige.com/?pageID=912>

Spex

Spex (pronounced exactly like "specks") is a special genre of comedic musical theater performed and written by university students in Sweden and parts of Finland. It commonly involves audience interaction, fun musical numbers and unexpected plot twists.

Holgerspexet: Holgerspexet is a student theater association at Linköping University which has staged public spex performances every fall since 1998. Between 60 and

80 students from all faculties at Linköping University are engaged in the preparations for the set of shows each year.
Homepage: <https://holgerspexet.se/>

Linköpings Studentspex: Student Spex association, first started in 1979.
Homepage: <https://www.studentspex.se/spex-in-english/>

Other associations

Navitas: Sustainability association, with the purpose to inspire, educate and bring together students who are interested in sustainability and the environment.
Homepage (in Swedish): <http://www.navitas.se/>

Ahead math coaching: Association that helps students at gymnasiums to learn math.
Homepage (in Swedish): <http://www.aheadcoachning.se/>

Dragon's Den: An association for board games and role playing by and for students.
Homepage: <http://www.dragonsden.se/>

Gen!us: Association with the purpose to increase gender awareness and equality at Linköping University.
Homepage (in Swedish):
<https://www.facebook.com/liuGENIUS>

LiRMA: Linköping Riichi Mahjong Association.
Homepage: <https://www.facebook.com/lirmamahjong/>

LiVA: Linköping Vegan Association.
Homepage (in Swedish):
<https://www.facebook.com/Livastudentforening/>

LiU Gamers: LiU Gamers is a non-profit student association for all gaming interested.
Homepage: <https://www.facebook.com/LiUGamers/>

Linköping University's Student Brewery: Association for home brewery.

Homepage (in Swedish): <https://liusb.se/>

LiU iGEM: Representing LiU in the international competition in synthetic biology.

Homepage: <https://www.facebook.com/LiUiGEM/>

Sweden Liute Magiskt: Organizes activities related to Harry Potter.

Homepage: <https://www.facebook.com/LiuteMagiskt/>

NärCon: A gaming and cosplay festival.

Homepage: <https://www.narcon.se/>

Nördboet: A board game association in Norrköping.

Homepage (in Swedish):

<https://www.facebook.com/nordboetnorrkoping>

RFSU Linköping LiU: Association working to spread knowledge and joy regarding questions about sexuality.

Homepage (in Swedish): <https://www.facebook.com/rfsu.liu>

For more information about student organizations and other activities outside of your studies follow this link:

<https://www.student.liu.se/vid-sidan-av-studierna/studentorganisationer/foreningar?l=en>

Accommodations and housing

Finding some place to live can be tough in a student city - but have no fear! There are several places where you can find a roof above your head in Linköping.

Studentbostäder (Student apartments) - Offers housing for registered students at Linköping University. If you are a new student or an exchange student, you can get a corridor room, but we recommend registering in advance to start collecting points for that sweet apartment as soon as possible!

Studentbostäder also offers “Bostad direkt”, where they have rooms and apartments that have no resident at present, and the first one to show interest gets it!

Homepage: <https://studentbostader.se>

KOMBO - KOMBO is the student's unions working together to make living and studying easier. On their webpage you can find apartments to rent.

Homepage: <https://bostad.karservice.se/>

Landlords - If you prefer a landlord that is not associated with student apartments, check out Linköping county's web page where they list several landlords in town (the web page is in Swedish, but you can easily access the list and go to each individual landlord's website for information in English!)

You find the list here: <https://www.linkoping.se/bygga-bo-och-miljo/bostader-och-offentliga-lokaler/hitta-bostad/>

ByggVestra is recommended by the university itself as a great place to look for an apartment

Homepage: <https://www.byggvesta.se/>

Facebook groups - Groups on Facebook, such as:

“Lägenheter i Linköping”

<https://www.facebook.com/groups/363618940460377>

“Bostad Linköping”

<https://www.facebook.com/groups/340566159421217>

“Accommodation for Students @ Linköping University”

<https://www.facebook.com/groups/152512118288068>

These are all good places to look for people renting out apartments second hand.

Bostadsportal - Bostadsportal is a web page where people can upload apartments, rooms and collective housing. You find all available apartments here: <https://bostadsportal.se>

Blocket.se is a web page like eBay where people from all of Sweden can sell, rent etc. All kind of tools, furniture as well as houses and apartments. Have a look at this web page to find a second hand flat. <https://blocket.se>

“**ESN Linköping Flea Market**” **facebook group** is also a good place to get second hand furniture or accommodation. With exchange student or other international student come in or move out of Linköping, there is always some good stuffs that you can find.

The website:

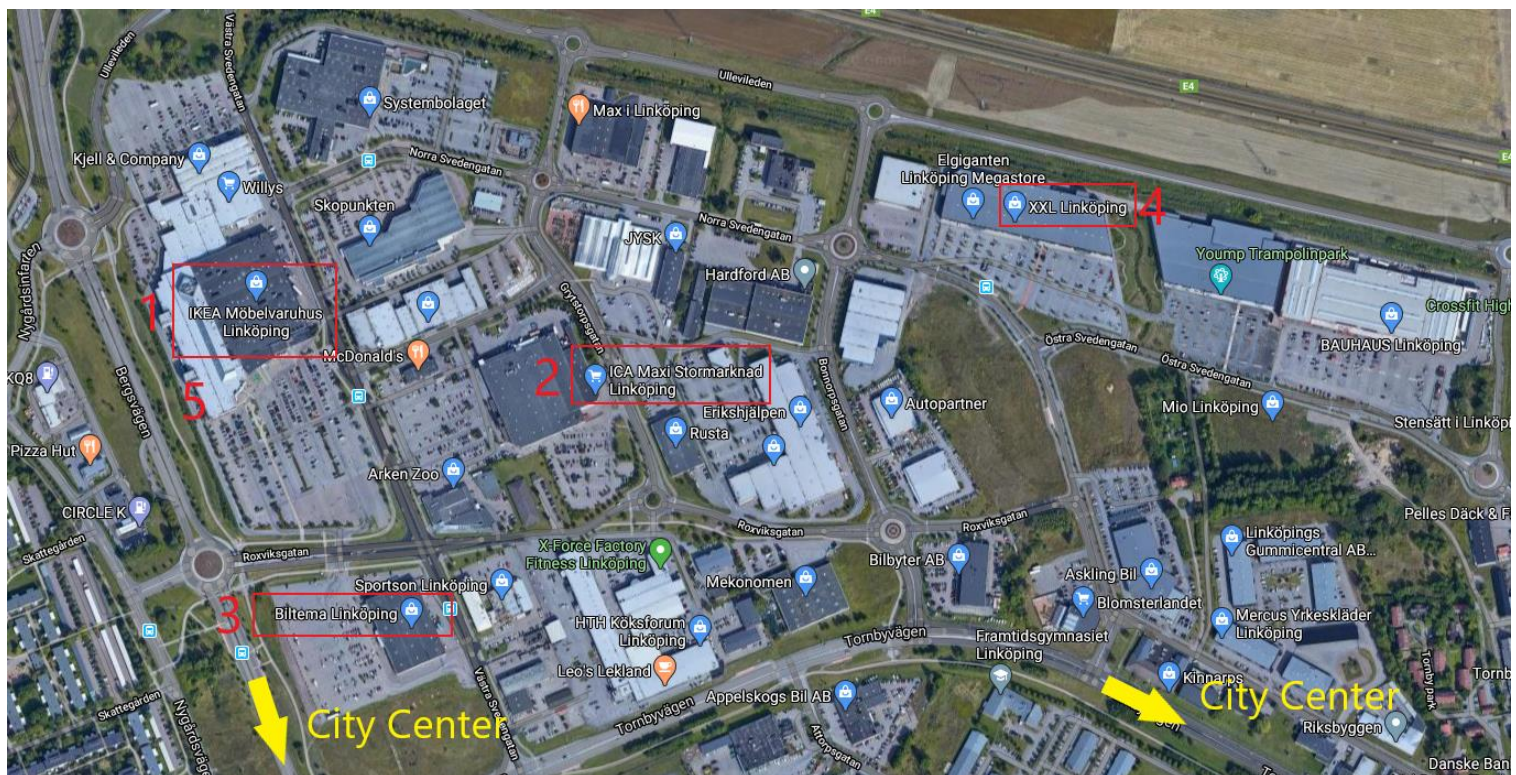

<https://www.facebook.com/groups/www.esnlinkoping.org>

Map of Tornby

As a new student in Linköping, if you want to buy all necessary survival stuff in one stop, Tornby is a place you must visit. You can get there by taking bus Line 10 from

Linköping central station (Resecentrum). In Tornby you will find:

1. **IKEA:** Everything from kitchen knife to a nice sofa. Want to make your place fully equipped and well decorated? This is where you should go!
2. **ICA MAXI:** Nice big supermarket where you can find almost every kind of food.
3. **Biltema:** Hardware store but they also sell bikes (Yosemite is a good and cheap brand). Don't forget to buy front / rear lights and TWO locks!
4. **XXL:** All kinds of sport stuff, they also have bikes (Merida and Giant) but more expensive.
5. **i-huset:** A mall next to IKEA where you can buy clothes, make-ups, books and much more. Inside you can also find some restaurants.

Traveling

Swedes and especially people in Linköping love to ride their bicycles, but some destinations are just too far away to be discovered by bike. Nevertheless, in Sweden you can easily travel by train or bus. Here you will get some tips and tricks about traveling, for example where to book your tickets and most important, how to save some money.

If you like to visit Norrköping, you should take Östgötatrafikens bus line 73, which was already mentioned in the bus line section, leaves from different places at the university (runs between Campus Norrköping, Campus US and Campus Valla in Linköping). Get on the bus after your lectures or PBL sessions directly from the US Norra entrén bus stop and arrive within 1h in the center of Norrköping. The best is, Monday-Friday you travel for free! Check out the timetable at www.ostgotatrafiken.se and do not forget to bring your valid LiU card with you!

But there is so much more to discover around Linköping and different long-distance bus companies give you the opportunity to visit different destinations nearby or further away. All long-distance busses leave at the bus terminal near the central station. Several busses per day leave to close destinations like Stockholm (3h), Gothenburg (4h) and Uppsala (4h). But also, long-distance routes for example to bigger cities in Denmark, Norway or Germany can be visited by bus. To find more about close destinations, prices and timetables check out the homepages of Flixbus (www.flixbus.se), Swebus (www.swebus.de) and Nettbuss (www.nettbuss.de). Flixbus for example offers 14 direct destinations starting from Linköping!

Traveling by bus takes time but is in comparison to the train often the cheaper alternative. However, traveling by train is often the faster and more comfortable possibility and if you book early enough or take the last-minute tickets you get a good price as well. With the high-speed train, you are in Stockholm for example in just 1.5 hours or you ride 3.5 hours in the other direction and get off at Copenhagen central station (Denmark).

But do not miss destinations like Jönköping (has a beautiful lake, Vättern), Huskvarna, Malmö and Lund on your way down to Denmark! Train companies are privatized in Sweden and all the different companies you can check and book online on the SJ website www.sj.se. For the booking it is important to keep in mind that there are always student or youth (under 26 years) tickets available! So, if you book a bus or train ticket online do not forget to choose the student price and take your valid LiU card with you! To make it even easier to book and plan your journey in and around Linköping, Östgötatrafiken, Flixbus, SJetc. offer different Apps for your smartphone!

If you want to travel even further you can take an airplane from Linköping Airport, Stockholm Skavsta, Stockholm Arlanda or Copenhagen Airport. With the bus company Flygbussarna (www.flygbussarna.se) you arrive at Stockholm Skavsta within 90 minutes. It is worth it to check out the flights starting at Skavsta airport, for example the airline called Ryanair (www.ryanair.com). If you get an ESN card (European Student Network) you will have access to 8 one-way flights per academic year where you get 15% off the flight price and one 20 kg check-in bag for free. For more information see: <https://www.ryanair.com/gb/en/plan-trip/explore/erasmus>.

If you depart from Stockholm Arlanda you can take a Flixbus or Swebus directly to the airport. If you travel with the airline SAS look out for the “SAS youth ticket”! Until you turn 26 the

ticket offers pretty good discounts. Also traveling in a group is worth it with SAS, you can get up to 35% and some other extra benefits. Therefore, you should visit following website: www.sas.se. No worries, students above 26 can get some special prices by booking with KiLROY (www.travels.kilroy.se). If you plan a trip by flight check directly at the airline's webpages, flights can be much cheaper here than at other travel booking portals. A flight from Skavsta to London with Ryanair for example starts already from 50 kr per route but hurry up: first comes first serves. If you want to take long distance flights Copenhagen Airport might be of interest as well.

From there a lot of big flight companies are taking off with direct flights to e.g. Dubai. Take the direct train from Linköping to Copenhagen Airport in less than 4h. Get yourself and your friends ready to travel! One day city trips to Norrköping, Stockholm and Goteborg are a good start. If you like it a little bit more relaxed take a bus for example to Norrköping and switch to a local bus which brings you to smaller towns, villages or starting points for a hike (maybe in Kolmården and Vikbolandet). You should also check the destinations of the local city busses to discover Linköpings surrounding or take your bike anyway and make a tour along the Göta Kanal to Bergs Slussar.

Swedish words to know

LiU offers Swedish courses for exchange students and foreign students, and you should all have received an email in May/June about this. If you have not received this email and are interested, or want further information, please contact Daniel Antonsson, daniel.antonsson@liu.se, +46 13 28 68 19.

Swedish songs to know:

- “Stad i ljus” - Tommy Körberg, played at the end of many student parties
- “Genom eld och vatten” – Sarek, old schlager song commonly played at student parties
- “Helan går” famous swedish “snapsvisa”, is sung at certain dinners before taking a shot.
- “Kung i baren” - Magnus Uggla, Famous Swedish song about being king of the bar. Commonly played at student parties

The welcoming week

The welcoming week for you newly admitted students is organized by us Faddrar and should help you to get to know Linköping, the student life, and of course your fellow students. The Swedish government prohibits gatherings of more than 50 people due to the Corona Virus, but this should not impair our welcoming week so much as we are a small program. The welcoming week will take place from the 24th to the 28th of August and below you find a schedule and short descriptions of the activities. Please fill in the google form which is send out with this e-mail to tell us which activity you can attend.
